Airbus is an international reference in the aerospace sector. We design, manufacture and deliver industry-leading commercial aircraft, helicopters, military transports, satellites and launch vehicles, as well as providing data services, navigation, secure communications, urban mobility and other solutions for customers on a global scale.

Airbus - Home - Aerospace pioneer

Airbus created a special version of the A320 for the former, one with a different landing gear. During the 90s, certain runways at Indian airports did not have the infrastructure to handle the weight of certain aircraft. These included the two-wheel configuration jets, which Indian Airlines expected to receive with the Airbus A320s.
