There is no definitive answer—any theory is at least in part speculative and uninformed. However, the most likely explanation is that a combination of events contributed to the death of so many climbers. Krakauer says: "[O]n Everest it is the nature of systems to break down with a vengeance" (358).

National Bestseller A bank of clouds was assembling on the not-so-distant horizon, but journalist-mountaineer Jon Krakauer, standing on the summit of Mt. Everest, saw nothing that "suggested that a murderous storm was bearing down." He was wrong. The storm, which claimed five lives and left countless more--including Krakauer's--in guilt-ridden disarray, would also provide the impetus for *Into Thin Air*, Krakauer's epic account of the May 1996 disaster. By writing *Into Thin Air*, Krakauer may have hoped to exorcise some of his own demons and lay to rest some of the painful questions that still surround the event. He takes great pains to provide a balanced picture of the people and events he witnessed and gives due credit to the tireless and dedicated Sherpas. He also avoids blasting easy targets such as Sandy Pittman, the wealthy socialite who brought an espresso maker along on the expedition. Krakauer's highly personal inquiry into the catastrophe provides a great deal of insight into what went wrong. But for Krakauer himself, further interviews and investigations only lead him to the conclusion that his perceived failures were directly responsible for a fellow climber's death. Clearly, Krakauer remains haunted by the disaster, and although he relates a number of incidents in which he acted selflessly and even heroically, he seems unable to view those instances objectively. In the end, despite his evenhanded and even generous assessment of others' actions, he reserves a full measure of vitriol for himself. This updated edition of *Into Thin Air* includes an extensive new postscript that sheds fascinating light on the acrimonious debate that flared between Krakauer and Everest guide Anatoli Boukreev in the wake of the tragedy. "I have no doubt that Boukreev's intentions were good on summit day," writes Krakauer in the postscript, dated August 1999. "What disturbs me, though, was Boukreev's refusal to acknowledge the possibility that he made even a single poor decision. Never did he indicate that perhaps it wasn't the best choice to climb without gas or go down ahead of his clients." As usual, Krakauer supports his points with dogged research and a good dose of humility. But rather than continue the heated discourse that has raged since *Into Thin Air*'s denouncement of guide Boukreev, Krakauer's tone is conciliatory; he points most of his criticism at G. Weston De Walt, who coauthored *The Climb*, Boukreev's version of events. And in a touching conclusion, Krakauer recounts his last conversation with the late Boukreev, in which the two weathered climbers agreed to disagree about certain points. Krakauer had great hopes to patch things up with Boukreev, but the Russian later died in an avalanche on another Himalayan peak, Annapurna I. In 1999, Krakauer received an Academy Award in Literature from the American Academy of Arts and Letters--a prestigious prize intended "to honor writers of exceptional accomplishment." According to the Academy's citation, "Krakauer combines the tenacity and courage of the finest tradition of investigative journalism with the stylish subtlety and profound insight of the born writer. His account of an ascent of Mount Everest has led to a general reevaluation of climbing and of the commercialization of what was once a romantic, solitary sport; while his account of the life and death of Christopher McCandless, who died of

starvation after challenging the Alaskan wilderness, delves even more deeply and disturbingly into the fascination of nature and the devastating effects of its lure on a young and curious mind."

No one writes about mountaineering and its attendant hardships and victories more brilliantly than critically acclaimed author Jon Krakauer. In this collection of his finest work from such magazines as *Outside* and *Smithsonian*, he explores the subject from the unique and memorable perspective of one who has battled peaks like K2, Denali, Everest, and, of course, the Eiger. Always with a keen eye, an open heart, and a hunger for the ultimate experience, he gives us unerring portraits of the mountaineering experience. Yet *Eiger Dreams* is more about people than about rock and ice—people with that odd, sometimes maniacal obsession with mountain summits that sets them apart from other men and women. Here we meet Adrian the Romanian, determined to be the first of his countrymen to solo Denali; John Gill, climber not of great mountains but of house-sized boulders so difficult to surmount that even demanding alpine climbs seem easy; and many more compelling and colorful characters. In the most intimate piece, "The Devils Thumb," Krakauer recounts his own near-fatal, ultimately triumphant struggle with solo-madness as he scales Alaska's Devils Thumb. *Eiger Dreams* is stirring, vivid writing about one of the most compelling and dangerous of all human pursuits.

The May 1996 climbing season on Mount Everest will go down in infamy. Its story has been recounted in David Breashears's gripping IMAX film, Jon Krakauer's bestseller *Into Thin Air*, and this NG film companion book, now updated with brilliant new panoramic photography. Written in suspenseful detail, the book documents how a courageous photographic team, facing hazards of their own, became an essential part of a rescue effort that brought some - but not all - of their companions down from the mountain alive. Added to the classic main text are fascinating updates: brief portraits of those who lived through the tragedy; a time line of subsequent climbing events on Everest, up to 2014; and never-before-published detailed panoramics of Everest and the Himalaya. The new feature film, starring Jake Gyllenhaal, Josh Brolin, Keira Knightley, and Robin Wright, presents the opportunity to refresh, update, and reintroduce one of National Geographic's most successful titles.

Everest, the major motion picture from Universal Pictures, is set for wide release on September 18, 2015. Read *The Climb*, Anatoli Boukreev (portrayed by Ingvar Sigurðsson in the film) and G. Weston DeWalt's compelling account of those fateful events on Everest. In May 1996 three expeditions attempted to climb Mount Everest on the Southeast Ridge route pioneered by Sir Edmund Hillary and Tenzing Norgay in 1953. Crowded conditions slowed their progress. Late in the day twenty-three men and women—including expedition leaders Scott Fischer and Rob Hall—were caught in a ferocious blizzard. Disoriented and out of oxygen, climbers struggled to find their way down the mountain as darkness approached. Alone and climbing blind, Anatoli Boukreev brought climbers back from the edge of certain death. This new edition includes a transcript of the Mountain Madness expedition debriefing recorded five days after the tragedy, as well as G. Weston DeWalt's response to *Into Thin Air* author Jon

Krakauer.

At 8am on 29 May 1999, Cathy O'Dowd, a 30-year-old mountaineer from South Africa, stepped onto the summit of Everest and into history. She had become the first woman to climb the highest mountain in the world from both its south (Edmund Hillary) and north (George Mallory) sides. To achieve this, Cathy has had to face the ultimate risks of Everest. During her first ascent from the south in 1996, she and her team were trapped in the killer storm described in Jon Krakauer's best seller *Into Thin Air*. They finally reached the summit, only to have the thrill of success snatched away when a team member disappeared on the descent. In 1998 Cathy, attempting the north side of Everest, stopped only a few hundred metres from the summit to try and help a dying American climber. The woman's first words were 'don't leave me'. Yet Cathy eventually had to leave her to save her own life. Now Cathy has captured the drama of her Everest climbs, her passion for the challenge of climbing mountains and her love for wild places in this story of her four attempts on the mountain. Cathy tries to answer the question of why, if climbing Everest can be so dangerous, people still want to do it. In a new chapter, Cathy shares the previously untold story of her fourth Everest expedition, an attempt to climb a new route on the seldom visited and very risky east face of Everest. Storms, avalanches and crevasses all contributed to an expedition fraught with difficulty. This is a book of challenge, of adventure, of love and life and death. This is Everest, the world's highest mountain, climbed 'just for the love of it'.
