Answers  
Example of

static

electricity:

When a balloon  
is rubbed  
against a woolly  
jumper,

electrons move  
from the sweater  
to the balloon.

The balloon now  
has more - s

# Get Free Balloons And Static Electricity

than + s, so it  
now has a  
negative charge.

The sweater  
loses some  
negative charges  
and so becomes  
positively  
charged. Like  
charges (e.g.  
two positives or  
two negatives)  
repel each  
other.
