There is no shoe that fits all. There is no book or knowledge that gives you the life you want. You don't make life happen, it happens. So there is no need to be afraid or feel guilty. You can be yourself, although most have forgotten who that is! Bhan Tugh decodes your DNA by a complex calculation based on 13 objects in the Solar System at two points in time, one of them using your precise birth time. This way you can find out what your true nature is, what makes you happy or unhappy, and what kind of life awaits you. You learn how to work with the life you have been given, instead of fighting and avoiding it. You can also see the relationship dynamic between any two people in a new light, without trying to change something that can't be changed. Love is not about changing the other. Two hundred years ago the human body underwent a mutation. Most people don't know how to work with the new Uranian body and its awareness and advanced senses to deal with a new world and life

that's at our doorstep. Life on Earth is going to change completely in the near future. Human civilisation as we know it will come to an end, and if this was not enough, a new species, the Rave, will be born after 2027.

In January 1987, Robert Alan Krakower, a former media producer and magazine publisher from Canada, had a mystical encounter on the Mediterranean island of Ibiza that lasted eight days and eight nights. During this time he did not eat, drink, or sleep. He received information about our universe, the design of all living forms, and most importantly, about a mutation in the human body that will lead to the emergence of a new species, the Rave, in 2027. With it, the evolutionary program will turn its back on humanity. The Industrial Revolution and the nation states as we know them will come to an end. The coming Rave will look human on the outside, but will have little in common with us. In fact, Raves will appear severely disabled. But the moment three of them come together they turn into "one being" with a shared consciousness that can do things that are unimaginable to us humans. Krakower was told the universe is an unborn living entity and that life in Earth will come to an end in about 1,200 years when it will be hit by a meteor. There will be no more biological life after Earth. However, this will be the beginning of yet another journey for us through the solar system with the emergence of the Eron. It will not eat or breathe. It will not die. And it will live as long as the universe exists.

This is part 1 of the Human Design book trilogy. (Part 2: The Prophecy of Ra - Part 3: Human Design, How to read a Graph) BaanTu shines a light on aspects of your being - and what's happening in your life - for you to see your self and how everything is connected in a whole new way. In a complex calculation based on 13 celestial bodies in our Solar System and your precise birth time, BaanTu decodes the mystery of your nature and life. You now have a better idea about what your true nature is, what makes you happy or unhappy, and what kind of life awaits you. It's like somebody turning on the lights, out of which everything changes. You also learn to clearly grasp the relationship dynamic between any two people, without trying to change something that can't be changed. Love is not always about changing the other. Two hundred years ago, the human body underwent a mutation. Most people don't know how to work with this new Uranian body, let alone its awareness and advanced senses needed to deal with a new world and life that's at our doorstep. Life on Earth is going to completely change in the near future. Human civilisation, as we know it, will come to an end, and if this was not enough, a new species, the Rave, will be born after 2027.

Human Design is a science that decodes the energetic wiring of the human body. Based on a precise birth time it's possible to understand how body and mind operate. Every human being is unique in nature. Human Design is not a "one for all" approach. Instead it offers a path to liberate you from the common concepts that take you further away from your unique gifts and talents. Two hundred years ago the human body began a mutation from the classic seven-centred Chakra body to a new nine-centred Uranian body, which has different characteristics than the Homo sapiens we knew. At bhantugh.com you can calculate the design of a person for free. The Graph is a visual representation of the major components that make up who you are. This book will help you understand what Human Design is, its history, how the calculations are made, and how to successfully read a Graph.

In this groundbreaking book about Human Design Peter Schoeber provides a comprehensive exposition of the most fundamental subjects in HD: How came it to the

world? What are the different foundations of the system? How is the bodygraph calculated? In its main part the book contains a systematic presentation of all centers in general and their potential and challenge in the state of definition and of openness. Many concrete everyday examples add to the practical value of this volume. You will enjoy reading it and you will know yourself much better afterwards! Visit us at: www.humandesignservices.de
