[Biomes Of North America Pogil Answer](#)

This unit on North American biomes will be a comparative study of each of the biomes' biotic and abiotic factors. We will look at representative species of both plants and animals for each of the biomes, and try to develop food chains from those organisms. Since an understanding of the physical environment is important to the understanding of the special adaptations some plants and animals have evolved with, we will also examine such things as temperature ranges, amount of moisture
