Management, Quality and Economics in Building

Report: Economic Significance of Maintenance Report 2020. Maintenance expenditure is rising, as measured by value of output, proportion of Gross Domestic Product (GDP), and as a percentage of the replacement value of the stock of buildings and works to be maintained. These are the results of a special report commissioned by BCIS*, which examined all available statistics to arrive at an estimate of the total expenditure on maintenance in the UK.

Whole-life costs for buildings WLC - Designing Buildings Wiki

Abstract. The performance of hospital buildings depends to a large degree on the efficiency of maintenance execution. The research objectives were to examine the efficiency of maintenance under alternative maintenance policies and alternative sources of labour (outsourcing vs. in-house). The research focused on maintenance of hospital buildings as a model for multi-system buildings operating in dynamic environments.
