The term looking glass self was created by American sociologist Charles Horton Cooley in 1902, and introduced into his work Human Nature and the Social Order. It is described as our reflection of how we think we appear to others. To further explain would be how oneself imagines how others view him/her. An example would be one's mother would view their child as flawless, while another person would think differently. Cooley takes into account three steps when using "the looking glass self". Step o

complementary aspects of human association.

Charles Horton Cooley - YourDictionary.com

Whereas the majority of the pioneers were Social Darwinists, Cooley was a less mechanical evolutionist: most were aiming to make sociology a rigorously objective science, while Cooley was more concerned with introspection and imagination—one of the earliest of humanistic sociologists.

Charles Horton Cooley - Oxford Reference

American sociologist. Professor of sociology at the University of Michigan from 1907; president of the American Sociological Association in 1918. Cooley was influenced by A. Comte (France), H. Spencer (Great Britain), and A. Schäffle (Germany), as well as by C. Darwin (Great Britain). Regarding society as a developing organic whole, he nevertheless rejected biological determinism and superficial analogies between society and the biological organism.

Charles Horton Cooley | Article about Charles Horton ...

Charles Horton Cooley and the Looking-glass Self Charles Herbert Cooley was an interactionist because of his idea that people are shaped by society. He is most known for his idea of the looking-glass self (Columbia Electronic Encyclopedia, 6th Edition). The looking-glass self explains as how individuals see themselves the way others view them.

The ' Looking Glass Self ' By Charles Horton Cooley | Bartleby

Charles Horton Cooley. PREFACE. Having had occasion to study transportation in several of those practical aspects that are demanding attention at the present day, I came to believe that if one was ever to understand this subject he must begin farther back than writers upon it were accustomed to do.
