The Civil Engineering Body of Knowledge is a body of knowledge, set forth in a proposal by the American Society of Civil Engineers entitled Civil Engineering Body of Knowledge for the 21st century. This proposal seeks to identify and implement improvements to the education and licensure process for civil engineers in the United States of America. The proposal is intended to increase occupational closure by increasing the requirements to become a licensed engineer. Some have identified this joint

Civil Engineering Body of Knowledge - Wikipedia

Engineering is the use of scientific principles to design and build machines, structures, and other items, including bridges, tunnels, roads, vehicles, and buildings. The discipline of engineering encompasses a broad range of more specialized fields of engineering, each with a more specific emphasis on particular areas of applied mathematics, applied science, and types of application.
