Conducting Research Literature Reviews | SAGE Publications Inc

Dissertation literature review If you are writing the literature review as part of your dissertation or thesis, reiterate your central problem or research question and give a brief summary of the scholarly context.

You can emphasize the timeliness of the topic (“ many recent studies have focused on the problem of x ”) or highlight a gap in the literature (“ while there has been much research on x, few researchers have taken y into consideration ”).

(PDF) Approach to Conduct an Effective Literature Review

Writing a research question is the first step in conducting a systematic review and is of paramount importance as it outlines both the need and validity of systematic reviews (Nguyen, et al., unpublished data). It also increases the efficiency of the review by limiting the time and cost of identifying and obtaining relevant literature.

Offering a step-by-step approach to conducting literature reviews, the Fifth Edition features new research, examples, and references from the social, behavioral, and health sciences, expanded coverage of qualitative research, updated and revised meta-analysis procedures, a brand new glossary of key terms, double the number of exercises, and additional examples of how to write reviews.

Conducting Research Literature Reviews: From the Internet ...
A literature review can be a part of a research paper or scholarly article, usually falling after the introduction and before the research methods sections. In these cases, the lit review just needs to cover scholarship that is important to the issue you are writing about; sometimes it will also cover key sources that informed your research methodology.
