Data Driven School Improvement Linking Data And Learning Data-Driven School Improvement. ERIC Digest. by Johnson, James H. Effective educators make effective decisions, decisions based on accurate information. If knowledge is power, then studying the current abilities, skills, attitudes, and learning styles of students empowers educators to adjust the curriculum to achieve whatever goals the school and district have chosen.

Staff View: Data-driven school
improvement

Abstract. Data-driven decision making has become increasingly important in education. Policymakers require educators to use data to inform practice. Although the policy emphasis is growing, what has not increased is attention to building human capacity around data use. Educators need to gain data literacy skills to inform practice.
