Germany's economic miracle is a widely-known phenomenon, and the world-leading, innovative products and services associated with German companies are something that others seek to imitate. In The 'Made in Germany' Champion Brands, Ugesh A. Joseph provides an extensively researched, insightful look at over 200 of Germany's best brands to see what they stand for, what has made them what they are today, and what might be transferable. The way Germany is branded as a nation carries across into the branding of its companies and services,

particularly the global superstar brands - truly world-class in size, performance and reputation. Just as important are the medium-sized and small enterprises, known as the 'Mittelstand'. These innovative and successful enterprises from a wide range of industries and product / service categories are amongst the World market leaders in their own niche and play a huge part in making Germany what it is today. The book also focuses on German industrial entrepreneurship and a selection of innovative and emergent stars. All these companies are supported and encouraged by a sophisticated infrastructure of facilitators, influencers and enhancers - the research, industry, trade and standards organizations, the fairs and exhibitions and all the social and cultural factors that influence, enhance and add positive value to the country's image. Professionals or academics interested in business; entrepreneurship; branding and marketing; product or service development; international trade and business development policy, will find fascinating insights in this book; while those with an interest in Germany from emerging industrial economies will learn something of the secrets of German success.

Edie Falco, Sheryl Crow, Athena Jones, and other breast cancer survivors and "previvors" tell their powerful, inspiring stories in this collection. Drawing from first-hand interviews of successful, high-profile women from myriad industries and perspectives, award-winning journalist Ali Rogin brings together an all-star support and recovery team to inspire anyone confronting a cancer diagnosis, along with their loved ones. Learn how preeminent actresses, musicians, politicians, journalists, and entrepreneurs faced a formidable disease and put it in its place. In their own words, the women of Beat Breast Cancer Like a Boss inform and encourage other women by sharing their experiences and advice. Learn how they told loved ones about their diagnoses, navigated treatment options, and managed the work/life/cancer balance. Rogin, too, faced great uncertainty when she tested positively for the BRCA1 genetic mutation at age twenty. She found answers in the vibrant community of breast cancer survivors and "previvors" who also stared down the odds. With her brave decision to undergo a prophylactic bilateral mastectomy before even graduating college, Rogin joined this diverse sisterhood of women confronting breast cancer in its many forms with dignity, strength, and humor.

Athletes and their support personnel are constantly seeking evidence-informed recommendations to enhance athletic performance during competition and to optimize training-induced adaptations. Accordingly, nutritional and supplementation strategies are commonplace when seeking to achieve these aims, with such practices being implemented before, during, or after competition and/or training in a periodized manner. Performance nutrition is becoming increasingly specialized and needs to consider the diversity of athletes and the nature of the competitions. This Special Issue, Nutrition Support for Athletic Performance, describes recent advances in these areas.

This book describes in detail the multidisciplinary management of obesity, providing readers with a thorough understanding of the rationale for a multidisciplinary approach and with the tools required to implement it effectively. The emphasis is on a translational approach, starting from basic concepts and fundamental mechanisms of the pathology and clinical morbidity. Experts in the

field discuss the full range of relevant topics, including the significance of physical exercise, psychological issues, nutritional strategies, pharmacological options and bariatric surgery. Put another way, the book covers all aspects from the bench to the bedside. Physicians, scientists and postgraduate students will all find it to be invaluable in understanding the causes and optimal management of obesity, which has rapidly become a major public health problem.

Obsessive self-promotion, an aggressive triggering response, and retaliatory rants. "Both sensitive and incisive, beautifully capturing the paradoxical dynamic of narcissism—that the grandiosity and surrounding bravado belies an underlying fragility and brittleness." —Kenneth N. Levy, PhD, Associate Professor, Penn State University; Senior Fellow, Personality Disorders Institute, Cornell University Even before Donald Trump entered America's highest office, an international survey revealed that narcissism is part of the assumed "national character" of Americans. While only a small number actually meet the criteria for Narcissistic Personality Disorder, those exploitive few have a way of gaining center stage in our culture. *Fragile Bully: Understanding Our Destructive Affair With Narcissism in the Age of Trump* looks beyond the sound bites of self-aggrandizing celebrities and selfish tweets to the real problem of narcissism. We see past the solo act to the vicious circles that arise in relationships with a fragile bully, and how patterns like this generate both power and self-destruction. We also look at the problem of Echo, how so many of us get hooked by the narcissist, and how variations on the destructive affair leave both partners dehumanized and diminished. Once we recognize the steps in each dance, we can break the cycle and allow and the possibility of true engagement.

"Masterfully captures the largely forgotten saga of warrior queens through the ages . . . an epic filled with victory, defeat, and legendary women." —Patrick K. O'Donnell, bestselling author of *The Indispensables* History's killer queens come in all colors, ages, and leadership styles. Elizabeth Tudor and Golda Meir played the roles of high-stakes gamblers who studied maps with an unblinking, calculating eye. Angola's Queen Njinga was willing to shed (and occasionally drink) blood to establish a stable kingdom in an Africa ravaged by the slave trade. Caterina Sforza defended her Italian holdings with cannon and scimitar, and Indira Gandhi launched a war to solve a refugee crisis. From ancient Persia to modern-day Britain, the daunting thresholds these exceptional women had to cross—and the clever, sometimes violent ways in which they smashed obstacles in their paths—are evoked in vivid detail. The narrative sidles up to these war queens in the most dire, tumultuous moments of their reigns and examines the brilliant methods and maneuvers they each used to defend themselves and their people from enemy forces. Father-daughter duo Jonathan W. and Emily Anne Jordan extoll the extraordinary power and potential of women in history who walked through war's kiln and emerged from the other side—some burnished to greatness, others burned to cinders. All of them, legends. "Reminds us intelligently, entertainingly and powerfully that strong-willed women have always been the equal—and very often the superior—of their male counterparts, even in the field historically most jealously reserved for men: warfare." —Andrew Roberts, *New York Times*-bestselling author "This book should be required reading for anyone who loves history." —James M. Scott, Pulitzer Prize finalist
