With the Covenant War over, the Office of Naval Intelligence faces old grievances rising again to threaten Earth. The angry, bitter colonies, still with scores to settle from the insurrection put on hold for thirty years, now want justice—and so does a man whose life was torn apart by ONI when his daughter was abducted for the SPARTAN-II program. Black ops squad Kilo-Five find their loyalties tested beyond breaking point when the father of their Spartan comrade, still searching for the truth about her disappearance, prepares to glass Earth's cities to get an answer. Welcome to humanity's new war: silent, high stakes, and unseen. This is a life-or-death mission for ONI's black-ops team, Kilo-Five, which is tasked with preventing the ruthless Elites, once the military leaders of the Covenant, from regrouping and threatening humankind again. What began as a routine dirty-tricks operation?keeping the Elites busy with their own insurrection?turns into a desperate bid to extract one member of Kilo-Five from the seething heart of an alien civil war. But troubles never come singly for Kilo-Five. Colonial terrorism is once again surfacing on one of the worlds that survived the war against the Covenant, and the man behind it is much more than just a name to Spartan-010. Meanwhile, the treasure trove of Forerunner technology recovered from the shield world of Onyx is being put to work while a kidnapped Elite plots vengeance on the humans he fears will bring his people to the brink of destruction. Earth and her colonies. For the first time in decades, however, peace finally seems possible. But though the fighting's stopped, the war is far from over: it's just gone underground. The UNSC's feared and secretive Office of Naval Intelligence recruits Kilo-Five, a team of ODSTs, a Spartan, and a diabolical AI to accelerate the Sangheili insurrection. Meanwhile, the Arbiter, the defector turned leader of a broken Covenant, struggles to stave off civil war among his divided people. Across the galaxy, a woman thought to have died on Reach is actually very much alive. Chief scientist Dr. Catherine Halsey broke every law in the book to create the Spartans, and now she's broken some more to save them. Marooned with Chief Mendez and a Spartan team in a Forerunner slipspace bubble hidden in the destroyed planet Onyx, she finds that the shield world has been guarding an ancient secret - a treasure trove of Forerunner technology that will change everything for the UNSC and mankind. As Kilo-Five joins the hunt for Halsey, humanity's violent past begins to catch up with all of them as disgruntled colony Venezia has been biding its time to strike at Earth, and its most dangerous terrorist has an old, painful link with both Halsey and Kilo-Five that will test everyone's loyalty to the limit.

The Delta Squad continues its efforts to save the world's survivors, who have been forced

to destroy their own cities and civilizations, from the brutal Locust Horde that launched its first attack fifteen years earlier.

Continuing the saga of the bestselling game series! With the Locust Horde apparently destroyed, Jacinto's survivors have begun to rebuild human society on the Locusts' stronghold. Raiding pirate gangs take a toll—but it's nothing that Marcus Fenix and the Gears can't handle. Then the nightmare that they thought they'd left behind begins to stalk them again. Something far worse, something even the Locust dreaded, has emerged to spread across the planet, and not even this remote island haven is beyond its reach. Gears and Stranded must fight side by side to survive their deadliest enemy yet, falling back on the savage tactics of another bloody siege—Anvil Gate.
