Habsburg Monarchy (German: Habsburgermonarchie) or Habsburg Empire is an umbrella term coined by historians to denote the numerous lands and kingdoms of the Habsburg dynasty, especially for those of the Austrian line. Although from 1438 to 1806 (with the exception of 1742 to 1745), a member of the House of Habsburg was also Holy Roman Emperor, the Holy Roman Empire itself, over which the ...

Hungarian Empire is based on a wide variety of material from Austrian, British, French and German archives and takes into account recent work by other historians of the subject, particularly the latest Austrian studies. It is supplemented by useful maps and translations of key diplomatic documents of the period.

This volume analyzes the relations of the Habsburg Monarchy with the other great powers of Europe, and with the small states that clustered around its borders. Diplomatic, military, political and economic factors are all taken into account.

Introduction: Austria and modernity -- 1815-1835: restoration and procrastination -- 1835-1851: revolution and reaction -- 1852-1867: transformation -- 1867-1879: liberalization -- 1879-1897: nationalization -- 1897-1914: modernization -- 1914-1918: self-destruction -- Conclusion: Central Europe and the paths not taken

S. 262-269: Taylor, A. J. P.: The political and ethnographical structure of the Habsburg monarchy.

Robin Okey's book shows how the Habsburg peoples experienced the same social, economic, and political processes as most other Europeans, in ways that cast interesting light on these processes from both the European and the Habsburg angle. Opposing views that the national problem was therefore subordinate to underlying socio-economic backwardness, Okey argues for the inextricable entanglement of the two themes, as nationalism emerged from a process of social mobilization which threatened the position of dominant Austro-Germans and Magyars.

The Habsburg Empire's grand strategy for outmaneuvering and outlasting stronger rivals in a complicated geopolitical world The Empire of Habsburg Austria faced more enemies than any other European great power. Flanked on four sides by rivals, it possessed few of the advantages that explain successful empires. Yet somehow Austria endured, outlasting Ottoman sieges, Frederick the Great, and Napoleon. A. Wess Mitchell tells the story of how this cash-strapped, polyglot empire survived for centuries in Europe's most dangerous neighborhood without succumbing to the pressures of multisided warfare. He shows how the Habsburgs played the long game in geopolitics, corralling friend and foe alike into voluntarily managing the empire's lengthy frontiers and extending a benign hegemony across the turbulent lands of middle Europe. The Grand Strategy of the Habsburg Empire offers lessons on how to navigate a messy geopolitical map, stand firm without the advantage of military predominance, and prevail against multiple rivals.

The Habsburg monarchy was a singular experiment in diversity within the European continent. By the eighteenth century it stretched from the Austrian Netherlands to the Balkans and southern Poland, and south into Italy. Its subjects spoke a number of languages, and while the

Where To Download Habsburg Monarchy Among The Great Powers 1815 1918

social and institutional structure of these lands shared common features, there were also substantial differences among them. Was the Habsburg monarchy therefore an empire like those of Great Britain, France or Spain? Drawing upon modern theoretical perspectives on European expansion to answer this question, Paula Sutter Fichtner argues that the Habsburg holdings did indeed constitute a form of European imperialism, and that they are best understood in such terms. *The Habsburg Monarchy, 1490-1848* - examines the role of the interaction between Habsburg rulers, territorial estates, and religious institutions in the expansion of the empire - explores the reorientation of these relationships under the impact of the European Enlightenment, the rationalization of dynastic government under Empress Maria Theresa and her son, Joseph II, the beginning of the Industrial Revolution, and the rise of nationalism - assesses the effect of the Revolutions of 1848 on the strength of the connections between the crown and its nobles, as well as its ties to its ecclesiastical elites and the bourgeoisie - discusses the parallel developments in cultural affairs as the coherence of a world outlook dominated by Catholicism gave way to linguistic and cultural particularism Incorporating the latest research, this broad-ranging study is an essential guide to one of Europe's most powerful and important dynasties.

"A feat of both scholarship and storytelling" (Wall Street Journal)--the definitive history of a powerful family dynasty who dominated Europe for centuries. In *The Habsburgs*, Martyn Rady tells the epic story of a dynasty and the world it built--and then lost--over nearly a millennium. From modest origins, the Habsburgs gained control of the Holy Roman Empire in the fifteenth century. Then, in a few decades, their possessions rapidly expanded to take in a large part of Europe, stretching from Hungary to Spain, and parts of the New World and the Far East. The Habsburgs dominated Central Europe through the First World War. Historians often depict the Habsburgs as leaders of a ramshackle empire. But Rady reveals their enduring power, driven by the belief that they were destined to rule the world as defenders of the Roman Catholic Church, guarantors of peace, and patrons of learning. This is the remarkable history of a dynasty that forever changed Europe and the world.

History of the Austrian empire and Austria-Hungary.

"The Habsburg Monarchy (or Habsburg Empire) is an unofficial appellation amongst historians for the countries and provinces which were ruled by the junior Austrian branch of the House of Habsburg (1278?1780), and then by the successor House of Habsburg-Lorraine (from 1780), between 1526 and 1804. The "Habsburg Monarchy / Habsburg Empire" term was born only posteriorly in the early 19th century, which referred to the Habsburg dominions between the 1526 - 1804 period. The Imperial capital was Vienna, except from 1583 to 1611, when it was moved to Prague. From 1804 to 1867 the Habsburgs ruled the
