correctly (perhaps with some EC). (I'll use this when shooting my children bodyboarding at the beach, for example - where I want a fast shutter to freeze motion, and a wide aperture to isolate them from others)

Exposure compensation vs Manual Mode | Talk Photography  
The 1/2 setting on manual flash mode is simply 1/2 the power of the full flash. What begins to get tricky is that digital cameras don't have a built in flash meter. When shooting in manual mode, the exposure meter will guide you to the right exposure , but there isn't a similar flash meter for using manual flash mode.
