Ever thought about capturing a queen, amassing real estate gold, or striking down a zombie or two? For centuries, games have stimulated the imagination. They have divided, and they have united. They have driven our competitive spirit and indulged our fancy. Live an entire lifetime in a few rolls of the dice. Push a few buttons and sustain perfect health. Essentially, games have and will continue to provide people worldwide a break from the everyday grind. With more than forty chapters, Games' Most Wanted whisks readers away into the fantasyland of games. Learn more about board games that have been passed through generations, video games that predict the future, and card games that have brought down the house. Ben H. Rome and Chris Hussey also reveal the culture behind the entertainment-the codes of conduct, the language, the conventions, and the workshops-proving that leisure can be a lifestyle. Something they won't reveal: how to rescue the princess. Regardless of the hand you're dealt, Games' Most Wanted is sure to cure any boredom.

A Board Game Education is an entertaining and valuable resource for parents, teachers, educators, and anyone who appreciates the fun and entertainment provided by classic, traditional board games. The book provides an informative analysis of how classic board games that everyone has played and probably owns are not only great family entertainment but also develop core educational skills that have been proven to lead to academic achievement. Through A Board Game Education readers learn a bit of the fascinating history trivia and little-known facts regarding the most loved board games of all time (i.e., how Monopoly was used by WWII POWs to escape). At the same time, Hinebaugh identifies the distinct educational skills developed by each of these games and explores in detail how the play of these games cultivates such skills. A Board Game Education also provides valuable suggestions about how to modify and vary these classic board games to specifically enhance additional core educational skills and concepts. Who would have thought that Candy Land could be modified into a strategy game and Chutes and Ladders could be used to teach algebraic equations and advanced math.
