types of developmental theories. First being  
the Psychoanalytic Theory, and the  
Cognitive Theory. Within these two types of  
theories there are several psychologists that  
have their own theory of development.

### Research Paper Child Development Theories

Theories such as Bowlby 's attachment  
theory can explain how a child 's  
development can be altered by their  
attachment, thus leading to the ideology of  
the nature vs nurture debate, nature  
referring to the process of biological  
maturation while nurture is referring to the  
influence of the environment or  
surroundings, which involves the idea that a  
person learns through experiences. (McLeod

The magnet theory suggests that children ' s brains organize phonetic boundaries according to native-language speech, hence the language heard in the child ' s environment is the one for which the magnets will make boundaries. This theory accounts for the development in the fi rst year of life, before children really acquire word meanings.
