The Rolling Stone Record Guide: Reviews and Ratings of Almost 10,000 Currently Available Rock, Pop, Soul, Country, Blues, Jazz, and Gospel Albums by Dave Marsh (1979-12-06) 3.8 out of 5 stars 20 Paperback

This comprehensive reference rates and describes albums released in the United States

Rates and reviews thousands of rock, pop, soul, rap, country, jazz, blues, folk, and gospel recordings

This comprehensive reference rates and describes albums released in the U.S

An alphabetical list of artists provides a CD discography for each, includes ratings for all albums, and includes a short critical essay for each entry

Here are sixty-odd years of recorded jazz brilliantly reviewed in one essential source. Covering more than 4,000 currently available jazz albums, this long-needed work will remain the standard reference in the field for years to come.

For the past fifty years, Rolling Stone has been a leading voice in journalism, cultural criticism, and—above all—music. This landmark book documents the magazine's rise to prominence as the voice of rock and roll and a leading showcase for era-defining photography. From the 1960s to the present day, the book offers a decade-by-decade exploration of American music and history. Interviews with rock legends—Bob Dylan, Mick Jagger, Kurt Cobain, Bruce Springsteen, and more—appear alongside iconic photographs by Baron Wolman, Annie Leibovitz, Mark Seliger, and other leading image-makers. With feature articles, excerpts, and exposés by such quintessential writers as Hunter S. Thompson, Matt Taibbi, and David Harris, this book is an irresistible and essential keepsake of the magazine that has defined American music for generations of readers.

This fun-to-read, easy-to-use reference has been completely updated, expanded, and revised with reviews of over 12,000 great albums by over 2,000 artists and groups in all rock genres. 50 charts.

Completely updated with new entries and extensive revisions of the previous 1,800, The Rolling Stone Encyclopedia Of Rock & Roll is the authoritative volume on the world's music makers—from the one-hit wonders to the megastars. In 1983, Rolling Stone Press introduced its first Rock & Roll Encyclopedia. Almost two decades later, it has become the premier guide to the history of rock & roll, and has been selected by the Rock and Roll Hall of Fame & Museum as its official source of information. Giving full coverage to all aspects of the rock scene, it tells the story of rock & roll in a clear and easy reference format, including complete discographies, personnel changes for every band, and backstage information like date and place of birth, from Elvis Presley to Eminem. Since the last edition, the music scene has exploded in every area, from boy-bands to hip-hop, electronica to indie rock. Here, the Encyclopedia explores them all—'NSync, Notorious B.I.G., Ricky Martin, Radiohead, Britney Spears, Blink-182, Sean "Puffy" Combs, Portishead, Fatboy Slim, Fiona Apple, Lil' Kim, Limp Bizkit, Oasis, Outkast, Yo La Tengo, TLC, and many, many more. The Rolling Stone Encyclopedia of Rock & Roll, Third Edition includes all the facts, phenomena, and flukes that make up the history of rock. Accompanying the biographical and discographical information on the nearly 2,000 artists included in this edition are incisive essays that reveal the performers' musical influences, first breaks, and critical and commercial hits and misses, as well as evaluations of their place in rock history. Filled with hundreds of historical photos, The Rolling Stone Encyclopedia is more than just a reference book, it is the bible of rock & roll.

A miracle of still-plentiful hair, raw sex appeal, and strutting talent. The frontman of one of the most influential and controversial groups of all time. A brilliant musician with a career spanning over four decades. A testament at once to British glamour and sensual decline. The ultimate demigod of rock. Bestselling biographer Philip Norman offers an unparalleled account of the life of a living legend, Mick Jagger. From middle-class schoolboy to rebel without a cause to Sixties rock sensation and global idol, the myth of the inimitable frontman of the Rolling Stones is unravelled by Norman with astonishing intimacy. Jagger charts his extraordinary journey through scandal-ridden conspiracy, infamous prison spell, hordes of female admirers and a knighthood while stripping away the colossal fame, wealth and idolatry to reveal a story of talent and promise unfulfilled. Jagger is shown in all his paradoxical glory: understated yet ostentatious; the ultimate incarnation of modern man's favourite fantasy—"sex, drugs and rock 'n' roll"—yet blessed with taste and intelligence; a social chameleon who couldn't blend in if he tried; always moving with the Jagger swagger, yet modest enough to be self-deprecating. This revelatory tour de force is ample tribute to a flawed genius who reconfigured the musical landscape.

The Rolling Stones were inducted into the Rock & Roll Hall of Fame in 1989 and the UK Music Hall of Fame in 2004. Rolling Stone magazine ranked the band #4 on their "100 Greatest Artists of All Time" list. With estimated album sales above 250 million, the band have released 30 studio albums, 18 live albums and numerous compilations. 1969's Let It Bleed was their first of five consecutive #1 studio and live albums in the UK. 1971's Sticky Fingers was the first of eight consecutive number one studio albums in the US. In 2008, the band ranked #10 on the Billboard Hot 100 All-Time Top Artists chart.
