Seeing is Understanding. The first VISUAL guide to marine diesel systems on recreational boats. Step-by-step instructions in clear, simple drawings explain how to maintain, winterize and recommission all parts of the system - fuel deck fill - engine - batteries - transmission - stern gland - propeller. Book one of a new series. Canadian author is a sailor and marine mechanic cruising aboard his 36-foot steel-hulled Chevrier sloop. Illustrations: 300+ drawings Pages: 222 pages Published: 2017 Format: softcover Category: Inboards, Gas & Diesel

Practical Plant Identification is an essential guide to identifying flowering plant families (wild or cultivated) in the northern hemisphere. Details of plant structure and terminology accompany practical keys to identify 318 families into which flowering plants are divided. Specifically designed for practical use, the keys can easily be worked backwards for checking identifications. Containing descriptions of families and listings of the genera within, it also includes a section on further identification to generic and specific levels. A successor to the author's bestselling The Identification of Flowering Plant Families, this guide is updated, and retains the same concise user-friendly approach. Cullen skillfully leads the reader from restrictive disciplines of older taxonomy, into an era of increasing numbers of plant families defined by DNA analysis. Aimed primarily at students of botany and horticulture, this is a perfect introduction to plant identification for anyone interested in plant taxonomy.

Diesel engines are installed in just about every yacht and in most large motorboats. This book explains how to prevent problems, troubleshoot and make repairs using safe techniques. It will help you save money on expensive bills for yard work you could do yourself. Diesels Afloat covers everything from how the diesel engine works to engine electrics, from fault finding to out of season lay-up. With this guide and your engine's manual you can be confident in dealing with any problem, and get the best performance from your boat.

Shaping character and life skills for our leaders of tomorrow has always been a challenging task. This exciting new book brings a new perspective to educating our young in a fun, exciting and engaging manner. High energy games that bring about both breadth and depth of discussion by the participants will inevitably develop their innate leadership potential and competency levels over time. These games are designed to be logistically minimal so that all can enjoy the games at any time.

This book is an anthology of critical reviews in business management which is taught in both levels, the undergraduate and the graduate level courses. Throughout the book Dr. Milad intended to tackle the crucial concepts that his management students have touched. Additionally, Dr. Milad followed closely the APA formatting, but occasionally, he was not restricted by its rules.
